

Halloween Pumpkin T-shirt

Materials:

- ★ Plain black or dark colored t-shirt
- ★ Craft felt in:
 - ★ Orange
 - ★ Purple
 - ★ Green
 - ★ Yellow
- ★ Black embroidery thread
 - ★ Or in darker shades of the felt colors
- ★ Embroidery needle
- ★ Scissors
- Optional:
 - ★ Pins
 - ★ Craft glue

Instructions:

1. Cut out all felt shapes. You will need a pumpkin from orange, facial features (eyes, nose, mouth) from yellow, a stem from green, and a bat from purple. Use the templates provided on the final page or create your own.

2. Using a running stitch (or other decorative stitch you wish to use throughout), outline the vertical center portion of pumpkin.

3. Using the same stitch as before, attach facial features to pumpkin. You can use either pins or craft glue to hold them in place as you stitch.

4. Layout pumpkin and stem at bottom of t-shirt. Again, you can use pins or craft glue to hold the pieces once you have the placement decided. Sew around the outline of the pumpkin, being sure to sandwich the stem below the top of the pumpkin.

5. Sew down the remaining edges of stem.

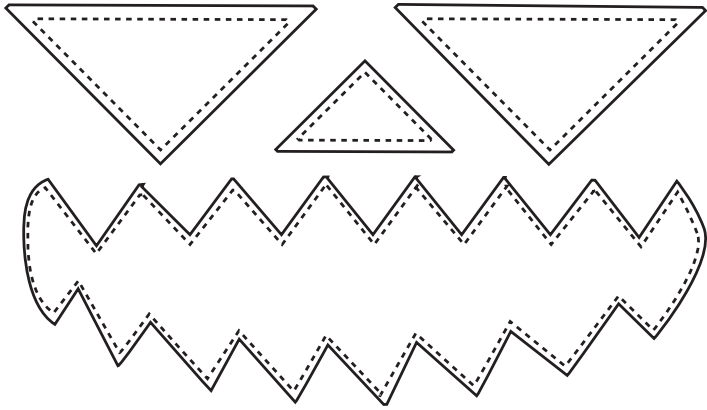

6. Place bat in upper section of shirt and sew around edge.

Finished shirt

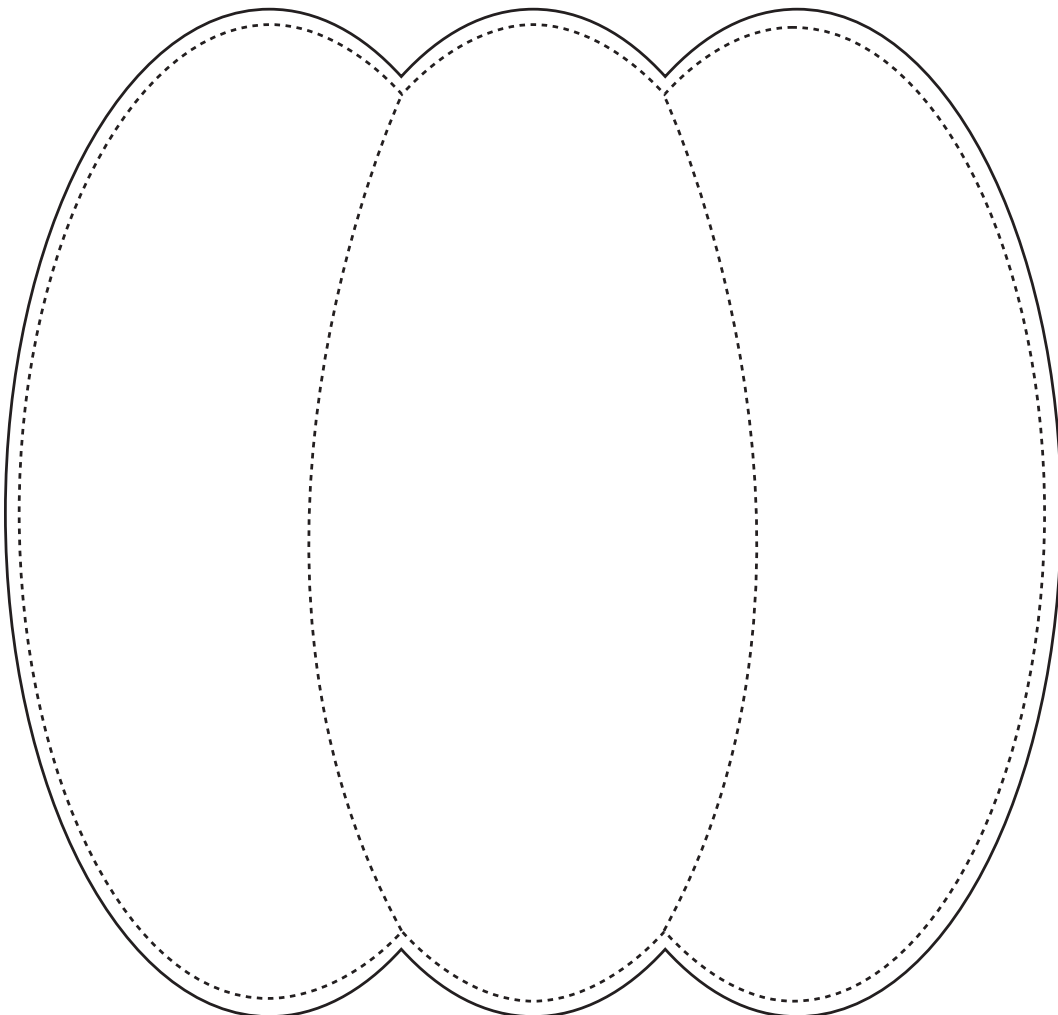

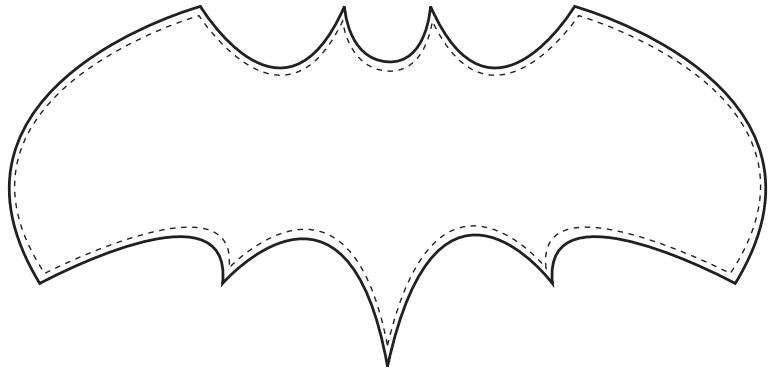

Note:

Be sure to follow washing instructions included with your felt. If you don't have washing instructions, wash a test piece to be sure it will come through the washing.

Facial Features
Cut from
yellow felt.

Bat
Cut from
purple felt.

Stem
Cut from
green felt.

Pumpkin
Cut from
orange felt.
